QUOTE REQUIREMENTS

In order to obtain a quote via email, please supply us with as much of the following information in order that we can calculate the most economical price for you.

1. Size/Shape of label required or approximate size if you are happy for us to match it as close as possible to a die we have in stock.
2. Label application and finish. This is an essential piece of information for us to determine what stock to use and whether lamination or varnish would be advisable. Please let us know what the label is going onto, is it required for outdoor use under direct sunlight, is it going onto a food product that will be either refrigerated or frozen, does it need to be waterproof, how long does it need to last and will the label be applied at room temperature.
3. How many colours are required to print or is label in full colour (CMYK).
4. Quantity of labels required.
5. Supply, Presentation and Rolling direction of labels:
 - On rolls (generally supplied on rolls of 1,000)
 - Core size if on rolls (38mm/3 inch)
 - Any particular rolling direction if on rolls. There are 8 rolling options but are generally only specified where labels are being machined applied
 - On sheets and to what size or how many labels per sheet
 - As single labels
